*If you can hold pruning shears,
you can prune, right?
Not quite.*

Vinpro's range of technical viticultural courses show the how and explain the why of best vineyard practices.

Choose the option that's right for you, from a quick brush-up of skills to more in-depth study.

Each topic is presented as a standalone course. A Vinpro certificate is issued to those who have successfully completed a course.

Made possible by a financial contribution from the Vinpro Foundation.

**Jy kan 'n snoeiskêr vashou,
so jy kan snoei, nê?
Nie heeltemal nie.**

Vinpro se reeks tegniese wingerdkundige kursusse wys die hoe en verduidelik die waarom van die beste wingerdpraktyke.

Kies die regte opsie vir jou, van die opskep van vaardighede tot meer dieptestudie.

Elke onderwerp word as 'n aparte kursus aangebied. 'n Vinpro-sertifikaat word aan diegene uitgereik wat die kursus suksesvol voltooi.

Moontlik gemaak deur 'n finansiële bydrae van die Vinpro Stigting.

OPTION 1

PRACTICAL

Ideal for vineyard teams to hone their skills in the field through practical demonstrations. These half day courses are presented on request and can be customised to the producer's needs.

TOPICS:

- Vineyard establishment • Pruning
- Vine development • Canopy management
