

Viticulture Training 2018

If you can hold pruning shears, you can prune, right? Not quite.

Vinpro's range of technical viticultural courses show the how and explain the why of best vineyard practices. Choose the option that's right for you, from a quick brush-up of skills to more in-depth study. Each topic is presented as a standalone course. A Vinpro certificate is issued to those who have successfully completed a course.

Made possible by a financial contribution from the Vinpro Foundation.

OPTIONS

1 Practical • 2 Theory & practical

Topics:

- Vineyard establishment • Pruning • Irrigation
- Identification of pests and diseases • Vine development
- Canopy management • Soil management • Fertilisation

Theory & practical

OPTION 2

Contact information:

Tel: +27 (0)21 276 0429

E-pos: training@vinpro.co.za

www.vinpro.co.za

– Johan van Rensburg, La Provence, Franschhoek.

“Our vineyard team's enthusiasm about the new skills is contagious – almost like yeast rising through the team.”

– Michael Klue, Klue Wines, Robertson.

“The presenters know their subject very well, and use humour and comparisons that their students associate with to relay important principles.”

Cost: R160 per person (VAT included)

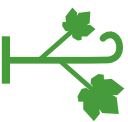

- Vineyard establishment • Pruning
- Vine development • Canopy management

Topics:

Ideal for vineyard teams to hone their skills in the field through practical demonstrations. These half day courses are presented on request and can be customised to the producer's needs.

Practical
