Wineries – in the Western Cape:

Since the micro-manufacturer's liquor licence (held by wineries in the Western Cape which manufacture less than 4 million litres of wine per year) is a "micro-manufacturer's on- and off-consumption licence" wineries are permitted to serve the wine **which they manufacture** for on-site consumption during the hours permitted for on-consumption sales.

They may however only offer tastings and sell wine for **off-site consumption** on the days and during the hours prescribed for off-consumption sales referred to above.

Transport of liquor by the public:

Members of the public will be permitted to transport liquor on any day and at any time (subject to the curfew).
